

## Club Sports

---

Lehigh University's Club Sports program provides students with activities to challenge them both physically and mentally. We strive to foster a positive, inclusive environment where all feel welcome and encouraged to do their absolute best. We are committed to enhancing the collegiate experience through our focus on helping students develop leadership skills, interpersonal skills, self-esteem, and healthy behaviors.

Club Sports at Lehigh University are defined as a student organization whose members are full-time Lehigh University students that meet regularly to pursue an interest in a sport of physical activity and competitiveness. Both undergraduate and graduate students are eligible to participate in club sports. However, only full-time students can participate. Club Sports will hold regular practices, compete against other colleges/universities, travel, pay dues, and may hold tryouts. Please contact the Campus Athletics office or email [inclbspt@lehigh.edu](mailto:inclbspt@lehigh.edu) with any questions you have.
